MOTIF

Sudh Mahadev Temple is situated in the town of Chenani in the western part of Jammu; the blessed temple of Sudh Mahadev was built by Chaudhauri Ramdas of Chenani and his son Chaudhauri Parag Mahajan about 80 years ago. Sri Masu Shahane of Sudh Mahadev is said to have constructed the entrance door to the temple. The holy spot near Patnitop, it is situated at an elevation of 1225m above sea level. Pilgrims visit the shrine on full moon night of the monsoon period to worship the famous Trident (trishul) and a mace, which is believed to belong to Lord Shiva. The Devak stream originating at this place disappears enchantingly among the rocks a few kilometers downstream. The temple has a natural block marble `lingam` and goddess Parvati mounted on Nandi, the bull. The `Dhooni` (sacred fire) immortalises the spiritual accomplishments of Baba RoopNath who is said to have attained Samadhi here. People are of the faith that the fire is burning since time immemorial, ever since Baba RoopNath resided here.

Legends speak of Lord Shiva engrossed in deep meditation, when he suddenly heard the shriek of Parvati(Uma), his consort. Shiva instantaneously charged his trident (trishul) in Uma`s direction to protect her from any misfortunes. However, in reality it was Sudheet, Shiva`s disciple who had approached Uma to pay his deferential obeisance, and since he was a demon in his previous birth, his fiendish looks frightened her and she screamed out loud. The trident though, killed Sudheet. Shiva realised his gross mistake and offered to revivify him, but Sudheet preferred to lay down his life in the hands of Lord Shiva himself. Affected by his devotion, Shiva prefixed his name to the place forever and the broken trident in three pieces can still be seen installed in the Sudh Mahadev temple.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village, Town and Ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.: (i) Status and Growth History of Towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of C.S. Sapru, Joint Director of Census Operation, Jammu and Kashmir. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

Registrar General &
Census Commissioner, India

New Delhi.

Dated:- 16-06-2014

Preface

The compilation and Publication of District Handbooks has been a traditional feature of the Indian Census since 1951. However in Jammu and Kashmir State, no census was conducted in 1951 and 1991 due to the unavoidable conditions prevailing then. The 2011 series of District census handbook contain two parts each. Part-A deals with Town and Village directory and Part B consists of Town and Village-wise Primary Census Abstract etc. The village also follows the same pattern as in 2001. It is hoped that with its present content the Handbook would, more than ever, serve as a useful reference publication, particularly for administrators and data users as have to deal with planning, implementation and evaluation of development programmes including the Minimum Needs Programme at the Grass Root level. The compilation of the Handbook would not have been possible but for the cooperation extended by the Revenue, Education, Medical, Public Health and other local authorities of the District in making data available for which I owe them my grateful thanks.

The Census -2011 was successfully conducted in the State under the able stewardship of Sh. Farooq Ahmed Factoo, IAS, Director Census Operations, J&K, who had to work very hard to see the operations of Census through in the State under the disturbed conditions prevailing in the State. The data presented in this volume has been collected and Tabulated under his supervision and control.

I am highly grateful to C. Chandermoulli, IAS, Additional Secretary to Government of India under whose stewardship the District Census Handbook has been finalized. I am also thankful A.K.Singh DRG (C&T) and Smt Pratibha Kumari ARG (SS) who extended valuable suggestions from time to time.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses.

In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief History of the District

The district is named after its capital town Udhampur. It is said to have been named after Udhham Singh, the eldest son of Gulab Singh, the founder of the Dogra rule in the State. Udhham Singh is said to have been very fond of hunting and he would carry out his hunting expeditions in this area then a thick jungle with wild growth and abundant game. He is said to have developed lot of fascination for the woods of this area and planned to build a town. Death overtook him at a very young age and he could not see through his dream. Maharaja Gulab Singh later in the memory of his beloved son devoted all his attention and resources in the construction of this town and within a short span wild forests were developed into a well planned and vibrating area.

"Tarikhi – Rajgani Jammu and Kashmir" has a little different version. With regard to the name of this place, it maintains that the place was originally known as Boonapur and when Udhham Singh envisaged the plan to develop it, it was renamed after his name.

With the reorganization of districts of the State in 1948, the district was bifurcated and Doda was carved out of it. In 2001 Census, the district comprised of GoolGulabGarh, Reasi, Udhampur, Chenani and Ramnagar tehsils together with eight towns viz; Reasi, Talwara, Katra, Udhampur, Rehambal, Kud, Chenani and Ramnagar. Again with the re-organization of districts of the State in the year 2007 the district was bifurcated and Reasi was carved out of it. 18 villages of Udhampur tehsil were transferred to Reasi tehsil and one village Rathian was treated as Census town. One forest block was newly created in Chennani tehsil. Besides, 41 villages of Ramnagar tehsil and one village namely Hardulivian of Samba tehsil were transferred to newly created Majaltatehsil. Further, one village i.eChanniMansar of Ramnagar tehsil was transferred to Samba tehsil.

Administrative set up

Udhampur district lies in the southern side of the State. The district is constituted of four tehsils; namely; Udhampur, Ramnagar, Chenani and Majalta. For development planning, these tehsils have been further divided into seven Community Development Blocks, namely; Udhampur, Chenani, Dudu Basant Garh Ghordi, Ramnagar, Panchari and Majalta. The rural part is constituted of 331 villages out of which 6 are uninhabited. Its urban sector is comprised of four towns viz. Chenani, Udhampur, Majalta and Ramnagar.

The administrative headquarter is located at Udhampur which is at a distance of 66 Kms. From Jammu on the Jammu-Srinagar National Highway.

The number of police stations in Udhampur district is 9. These police stations are situated at city Udhampur, Chenani, Majalta, Ramnagar, DuduBasantGarh, Panchari, Rehambal, Kud and Latti. There are 10 educational zones in the district.

The judicial set up of the district is of the following order:

- (i) Principal District and Session Judge, Udhampur
- (ii) Chief Judicial Magistrate, Udhampur
- (iii) Sub-Judge, Ramnagar
- (iv) Munsiff, Chenani
- (v) Munsiff District Mobile Magistrate, Udhampur
- (vi) Munsiff, Majalta
- (vii) Munsiff, Udhampur

Each Tehsil, Community Development Block, Police Station and Educational Zone is headed by an Officer of the rank of Tehsildar, Block Development Officer, Station House Officer and Zonal Education Officer. The Revenue Department, Community Development Department, Police Department and Education Department are discharging their duties under close supervision of their next District level Supervisory Officer with District Development Commissioner at the apex to oversee the functioning of entire District Administrative Machinery. The administration of Police force is vested with Superintendent of Police in the district but under the general directions the District Magistrate as per provisions of law i.e. Indian Police Act, 1861.

DISTRICT HIGHLIGHTS - 2011 CENSUS

Udhampur District has been named after Raja Udham Singh, the eldest son of Maharaja Gulab Singh, who was the founder of Dogra rule in Jammu and Kashmir.

At 2001 Census, the district was comprised of five tehsils namely: Gool Gulab Garh, Reasi, Udhampur, Chenani and Ramnagar. After 2001 Census, one district; viz Reasi was carved out from erstwhile Udhampur district by detaching Gool Gulab Garh and Reasi tehsils. Further, 18 villages of Udhampur tehsil were transferred to Reasi tehsil and one village Rathian was treated as Census Town. Besides, 41 villages of Ramnagar tehsil and one village namely Hardulivian of Samba tehsil were transferred to newly created Majalata tehsil. Further, one village i.e. Channi Mansar of Ramnagar tehsil was transferred to Samba tehsil. Thus, the number of tehsils of Udhampur district stands at 04. These tehsils are further divided into 7 Community Development Blocks namely Panchari, Chenani, Udhampur, Ramnagar, Ghordi, Duru and Majalata. While the rural part of the district is constituted of 331 villages which also includes 6 un-inhabited villages, the urban sector of the district is made up of eight towns (including two Census towns-Rathian and Rehambal). During 2001 Census, Udhampur Urban Agglomeration was comprised of 27 villages which were detached from Udhampur tehsil and treated as outgrowths of Udhampur MC. After 2001 Census, two Outgrowths; namely; Karlahi Kangaloo and Karlahi - Sukhi stand merged with Udhampur M.C.I.

The district has returned a population of 5,54,985 which is 4.43 per cent of the total population of the State. Amazingly, among all the districts of the State, Udhampur ranks 10th in terms of population. Sex ratio viz, number of females per 1,000 males is 870 which is lower as compared to the State's ratio of 889. The rural part of the district spread over an area of 2593.28 Sq. km and that of urban part is 43.72 Sq. Km.

The data reveals that the net addition to district's population between 1901 and 1911 was 7,557 registering thereby decadal growth rate of 7.52 per cent. The said rate declined to 4.45 per cent during 1911-21. It increased to 6.37 per cent in 1921-31 and then further rose to 8.63 per cent and 10.28 per cent during the decades 1931-41 and 1941-51 respectively. However, during 1951-61, the growth rate dipped to 9.32 per cent and again shot to as high 32.67 per cent during the decade 1961-71 and decreased to 29.87 per cent during 1971-81. The growth rates relating to decades 1981-91 and 1991-2001 were 31.00 per cent and 29.54 per cent respectively. The growth rate recorded between 2001 and 2011 is 20.78 per cent which is lower when compared with the corresponding growth rate of the State, standing at 23.64 per cent. No Census was conducted in the State during 1951 and 1991 due to disturbed conditions prevailing then. 1951 population figures are the arithmetic mean of 1941 and 1961 population, whereas 1991 population figures have been worked out by 'interpolation'.

Child population in the age group 0-6 is 84,332, comprising 44,703 males and 39,629 females. This population constitutes 15.19 per cent of the total population of the district. Number of females per 1,000 males in this age group is 886 which is higher when compared with the corresponding ratio of the State, standing at 862.

So far as literate population of the district is concerned, 322,354 persons have been recorded as literate, constituting 68.49 per cent of the total population of the district (excluding population in the age group 0-6) as against 67.16 per cent for State as a whole. Male and female literates in the district account for 78.36 per cent and 57.10 per cent respectively. The corresponding proportion of male and female literates in the State is slightly lower standing at 76.7 per cent and 56.43 per cent respectively.

Total workers in the district constitute 43.91 per cent, out of which 27.47 per cent are main workers and 16.44 per cent are marginal workers; non workers comprise 56.09 per cent. The corresponding proportions for total, main and marginal workers in case of State as a whole are 34.47 per cent, 21.08 per cent and 13.39 per cent respectively; implying thereby that Udhampur district has recorded higher percentage of working force as compared to that of the State.

Schedule castes population is 1,38,569 accounting for 24.97 per cent of the total population of the district which is higher as compared with the corresponding percentage of the State (7.38). In the district, the respective percentage of male and female schedule castes is 24.29 and 25.75.

Schedule tribes number 56,309 or 10.15 per cent of the total population of the district as against 11.91 per cent recorded for the State as a whole. In the district, male schedule tribes account for 9.82 per cent while females claim 10.52 per cent.

	Females	433,225	38.42	25,270	31.66

Notes:

a) Includes 78,114 sq. kms. under illegal occupation of Pakistan and 5,180 sq. kms. illegally handed over by Pakistan to China and 37,555 sq. kms under illegal occupation of China in Leh (Ladakh) district.

b) The population figures exclude population of areas under unlawful occupation of Pakistan and Chinawhere census could not be taken.

c) Population of villages transferred after 1971 conflict to Kupwara, Kargil, Leh and Punch districts from other side of line of control referred to in the Shimla Agreement of 1972 has not been included upto 1971 Census .

Note: Village level area figures have been provided by the concerned district revenue authority of state Govt.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March,

2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

-4-

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District

Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
